

Here's what millions have been waiting for...

# SURAJ GAS MAKES A BIG BREAKTHROUGH

## At last! A private gas company releases cooking gas connections... within just a few months of booking.

### Suraj Gas Creates a Landmark

Here's sensational news for millions of housewives! Thanks to the government's policy of parallel marketing of LPG, you can get your cooking gas in approximately 2 months of booking! What's more, you can get more than one connection, too!

Remember, Suraj Gas comes from Bygging India Ltd., a dynamic, professional company with an impressive track-record of setting up prestigious and complex engineering projects. Bygging India Limited is a company you can trust for efficiency and reliability.

### Suraj Gas vs Cooking gas from the Public Sector Companies.

You can get cooking gas from Public Sector Companies in 5 to 10 years after booking! Calculating at the present inflation rate, the cost of the refill will zoom up to a much higher level than at present. However, if you book with us, you will get your connections within just a few months at a realistic price. Naturally, you will choose Suraj Gas!

**As per CCOE standardisation:**  
12 Kg. cylinder with ISI No. 3196 (Part-I)  
22 mm. Valve dia - ISI No. 8737 (Part-II)

### Suraj Gas: Economical and Convenient

- \* Calculate the cost of using kerosene for a normal family - it costs more than Suraj Gas.
- \* Deliveries within 2 months of booking.
- \* No restrictions on number of connections.
- \* No ration card or passport required.
- \* Vast Dealer Network.

### CAUTION

- \* Be careful about unreliable companies and fly-by-night operators offering gas connections.
- \* Please note that a white cylinder doesn't contain LPG - it contains RHLG, an inferior cooking gas.
- \* Book only with Suraj Gas Authorised Dealers.

APPLICATIONS FORMS AVAILABLE FOR Rs. 10/- AT YOUR NEAREST DEALER.
